Malene Juhl Jensen, Mystery Lady

"A star for a star"

"Aster means star in Greek, and for that reason we have chosen to name our new varieties after star florists." At the IFTF Danish breeder Mystery Lady proudly presented their new aster Nils Norman, which they named after Norwegian florist Nils Norman Iversen. It is the first one in their series of Stars of Happiness,...

Kees Veldhuijzen, Iribov:

Tissue culture awaits massive future

The importance of clean and qualitatively strong production material is increasing because more and more diseases and pests are arising. The demands that other countries place on plant material from the Netherlands are also becoming stricter. One of the ways to respond to this is production from tissue culture. Tissue culture is the propagation of...
